## Cleaners

# CEMENT REMOVER 2.0

**Concentrated acid cleaner for the removal of inorganic dirt, cement residues, and salt efflorescence**

**CEMENT REMOVER 2.0** is a concentrated acid cleaner formulated for the post-installation of floorings or coverings grouted with cementitious materials. The product is also extremely effective for cleaning inorganic dirt and saline efflorescence.

### BENEFITS

- ✓ Concentrated Formula
- ✓ Effective for removing cement residues
- ✓ High cleaning action
- ✓ Excellent descaling power

### USES

Product suitable for cleaning both indoors and outdoors.  
 Product suitable for cleaning terracotta, granite, lapped porcelain stoneware, natural porcelain tiles, structured porcelain tiles, natural stones not sensitive to acids.  
 Product not suitable for use on surfaces and materials sensitive to acids.

### COVERAGE

10/15 m<sup>2</sup>/l

### APPLICATION EQUIPMENT

White Pad, Single disk machine

### APPLICATION STEPS

*Before applying the product it is necessary taking a preliminary test to evaluate the suitability of the product on an unexposed area or unused piece of material*

#### Surface Preparation

- Before proceeding with washing it is recommended to dry remove any surface residues such as dust and debris with a broom or vacuum cleaner.
- Protect all areas and furniture that could be damaged during the cleaning operations.
- Washing must be carried out 7 days from the grouting date.

#### Application

- Use the product pure or diluted 1:1 in water to evaluate based on the dirt to be removed.
- Begin working the product by rubbing the surface with the tool of your choice
- Let the product act for 5 to 10 minutes, during which you continue to rub the surface with the tool you are using to promote the cleansing action of the product.
- Once the work is finished, eliminate product residues and rinse the entire flooring thoroughly with water. If the result has only been partially achieved, repeat the application in the same way and possibly slightly increase the concentration of the product in the water.

#### Resume surface use

- After having carefully removed residues and rinsed the support with water, it is not necessary to wait any longer.
