

Cleaners

GROUT CLEANER

Alkaline-based cleaner for deep cleaning of tile joints and to remove cement-based grout from acid-sensitive materials.

GROUT CLEANER is a water-based alkaline cleaner specifically formulated for the deep cleaning of Tile joints on floors, where there is built-up of old dirt, and also remove grout and cement residues from acid-sensitive materials.

BENEFITS

- High cleaning power
- ✓ Concentrated Formula
- ✓ Versatile

USES

Suitable for indoor and outdoor applications.

Suitable for Cotto, terracotta, marble, slate, granite, stone, travertine, porcelain stoneware, ceramics and all alkali-resistant surfaces

COVERAGE

10/15 m²/l

APPLICATION EQUIPMENT

White Pad, Single disk machine

APPLICATION STEPS

Before applying the product it is necessary to take a preliminary test to evaluate the suitability of the product on an unexposed area or unused piece of material

Surface Preparation

- Before proceeding with the cleaning, it is advisable to clean away any surface residues, such as dust, debris, and coarse dirt, using a broom or a vacuum cleaner.
- Protect any surface close by that is not meant to be treated.
- Apply the product on surfaces with a temperature between +5 e +40°C
- Wait at least 2 days after the installation for the grouting to cure completely

Application

- Dilute the product in clean water. Pour 1 part product into 4 parts water.
- Begin to work the product over the tile joints, rubbing the surface with the tool of your choice.
- Let the product act for 5 10 minutes, continuing to wipe over the surface with your tool of choice to boost and aid its cleansing action.
- After working the product, remove all residues and rinse the whole floor with plenty of water. If the result is only partially achieved, repeat the application process following the same steps and if necessary, slightly increase the concentration of the product in water. For more even-looking results between the joints and the flooring, wash the whole surface with GROUT CLEANER.
- Make sure to not leave the product on the surface for too long.

Resume Surface Use

• After carefully removing any residues and rinsing the surface with water, the floor can be opened to foot traffic.
